

School Online Safety Policy

Waterside Primary School

Updated September 2023

Scope of the Online Safety Policy

This Online Safety Policy outlines the commitment of Waterside Primary School to safeguard members of our school community online in accordance with statutory guidance and best practice.

This Online Safety Policy applies to all members of the school community (including staff, learners, governors, volunteers, parents and carers, visitors, community users) who have access to and are users of school digital systems, both in and out of the school. It also applies to the use of personal digital technology on the school site (where allowed).

Waterside Primary school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Policy development, monitoring and review

This Online Safety Policy has been developed by the online safety committee made up of The Headteacher, Deputy Headteacher and the School business manager.

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for development, monitoring and review

This Online Safety Policy was approved by the school governing body on:	
The implementation of this Online Safety Policy will be monitored by:	The Senior leadership team and the governing body.
Monitoring will take place at regular intervals:	As a minimum annually and scheduled on a bi weekly basis with our third party IT support.
The governing body will receive a report on the implementation of the Online Safety Policy generated by the monitoring group (which will include anonymous details of online safety incidents) at regular intervals:	Annually
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new technological developments, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	September 2024
Should serious online safety incidents take place, the following external persons/agencies should be informed:	LA, Children's services and as appropriate the police.

Process for monitoring the impact of the Online Safety Policy

The school will monitor the impact of the policy using:

- logs of reported incidents
- Filtering and monitoring logs
- internal monitoring data for network activity

Policy and leadership

Responsibilities

To ensure the online safeguarding of members of our school community it is important that all members of that community work together to develop safe and responsible online behaviours, learning from each other and from good practice elsewhere, reporting inappropriate online behaviours, concerns, and misuse as soon as these become apparent. While this will be a team effort, the following sections outline the online safety roles and responsibilities of individuals¹ and groups within the school.

Headteacher and senior leaders

- The headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community and fostering a culture of safeguarding, though the day-to-day responsibility for online safety is held by the Designated Safeguarding Lead, as defined in Keeping Children Safe in Education.
- The headteacher and deputy head teacher should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff².
- The headteacher/senior leaders are responsible for ensuring that the Designated Safeguarding Lead / Online Safety Lead, IT provider/technical staff, and other relevant staff carry out their responsibilities effectively and receive suitable training to enable them to carry out their roles and train other colleagues, as relevant.
- The headteacher/senior leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role.

¹ In a small school some of the roles described may be combined, though it is important to ensure that there is sufficient 'separation of responsibility' should this be the case.

² See flow chart on dealing with online safety incidents in 'Responding to incidents of misuse' and relevant local authority/MAT/ HR/other relevant body disciplinary procedures.

- The headteacher/senior leaders will receive regular monitoring reports from the Designated Safeguarding Lead / Online Safety Lead.
- The headteacher/senior leaders will work with the **responsible Governor, the designated safeguarding lead (DSL) and IT service providers in all aspects of filtering and monitoring.**

Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy by asking the questions posed in the UKCIS document "Online Safety in Schools and Colleges – questions from the Governing Body".

This review will be carried out by the safeguarding governor whose members will receive regular information about online safety incidents and monitoring reports. A member of the governing body will take on the role of Online Safety Governor to include:

- regular meetings with the Designated Safeguarding Lead / Online Safety Lead
- regularly receiving (collated and anonymised) reports of online safety incidents
- checking that provision outlined in the Online Safety Policy (e.g. online safety education provision and staff training is taking place as intended)
- Ensuring that the filtering and monitoring provision is reviewed and recorded, at least annually. (The review will be conducted by members of the SLT, the DSL, and the IT service provider and involve the responsible governor) - in-line with the DfE Filtering and Monitoring Standards
- **reporting to relevant governor**
- Receiving (at least) basic cyber-security training to enable the governors to check that the school meets the DfE Cyber-Security Standards

The governing body will also support the school in encouraging parents/carers and the wider community to become engaged in online safety activities.

Designated Safety Lead (DSL)

While the responsibility for online safety is held by the DSL and cannot be delegated, the school may choose to appoint an Online Safety Lead or other relevant persons to work in support of the DSL in carrying out these responsibilities. It is recommended that the school reviews the sections below for the DSL and OSL and allocate roles depending on the structure it has chosen.

The DSL will:

- hold the lead responsibility for online safety, within their safeguarding role.
- Receive relevant and regularly updated training in online safety to enable them to understand the risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online.
- meet regularly with the online safety governor to discuss current issues, review (anonymised) incidents and filtering and monitoring logs and ensuring that annual (at least) filtering and monitoring checks are carried out.
- attend relevant governing body meetings/groups.
- **be responsible for receiving reports of online safety incidents and handling them**, and deciding whether to make a referral by liaising with relevant agencies, **ensuring that all incidents are recorded.**
- liaise with staff and IT providers on matters of safety and safeguarding and welfare (including online and digital safety)

Online Safety Leads – IT LEAD/DHT

The Online Safety Leads will:

- work closely on a day-to-day basis with the Designated Safeguarding Lead (DSL),
- receive reports of online safety issues, being aware of the potential for serious child protection concerns and ensure that these are logged to inform future online safety developments.
- have a leading role in establishing and reviewing the school online safety policies/documents.
- promote an awareness of and commitment to online safety education / awareness raising across the school and beyond.

- liaise with curriculum leaders to ensure that the online safety curriculum is planned, mapped, embedded and evaluated.
- ensure that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place and the need to immediately report those incidents.
- provide (or identify sources of) training and advice for staff/governors/parents/carers/learners.
- liaise with (school/local authority/MAT/external provider) technical staff, pastoral staff and support staff (as relevant)
- receive regularly updated training to allow them to understand how digital technologies are used and are developing (particularly by learners) about the areas defined In Keeping Children Safe in Education:
 - content
 - contact
 - conduct
 - commerce

Curriculum Leads

Curriculum Leads will work with the DSL to develop a planned and coordinated online safety education programme.

This will be provided through:

- a discrete programme
- PHSE and SRE programmes
- A mapped cross-curricular programme
- assemblies and pastoral programmes
- through relevant national initiatives and opportunities e.g. Safer Internet Day and Anti-bullying week.

Teaching and support staff

School staff are responsible for ensuring that:

- they have an awareness of current online safety matters/trends and of the current school Online Safety Policy and practices.
- they understand that online safety is a core part of safeguarding.
- they have read, understood, and signed the staff acceptable use agreement (AUA)
- they immediately report any suspected misuse or problem to the designated safeguarding lead for investigation/action, in line with the school safeguarding procedures
- all digital communications with learners and parents/carers are on a professional level and only carried out using official school systems.
- online safety issues are embedded in all aspects of the curriculum and other activities.
- ensure learners understand and follow the Online Safety Policy and acceptable use agreements, have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations.
- they supervise and monitor the use of digital technologies, mobile devices, cameras, etc., in lessons and other school activities (where allowed) and implement current policies regarding these devices.
- in lessons where internet use is pre-planned learners are guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches
- where lessons take place using live-streaming or videoconferencing, there is regard to national safeguarding guidance and local safeguarding policies.
- there is a zero-tolerance approach to incidents of online-bullying, sexual harassment, discrimination, hatred etc.
- they model safe, responsible, and professional online behaviours in their own use of technology, including out of school and in their use of social media.

IT Provider

"The IT service provider should have technical responsibility for:

- maintaining filtering and monitoring systems
- providing filtering and monitoring reports
- completing actions following concerns or checks to systems".

"The IT service provider should work with the senior leadership team and DSL to:

- procure systems.
- identify risk.
- carry out reviews.
- carry out checks.

If the school has a technology service provided by an outside contractor, it is the responsibility of the school to ensure that the provider carries out all the online safety measures that the school's obligations and responsibilities require. It is also important that the provider follows and implements school Online Safety Policy and procedures.

The IT Provider is responsible for ensuring that:

- they are aware of and follow the school Online Safety Policy and Technical Security Policy to carry out their work effectively in line with school policy
- the school technical infrastructure is secure and is not open to misuse or malicious attack
- the school meets (as a minimum) the required online safety technical requirements as identified by the DfE Meeting Digital and Technology Standards in Schools & Colleges and guidance from local authority / MAT or other relevant body
- there is clear, safe, and managed control of user access to networks and devices
- they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- the use of technology is regularly and effectively monitored in order that any misuse/attempted misuse can be reported to the DSL for investigation and action
- the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person

- monitoring systems are implemented and regularly updated as agreed in school policies

Learners

- are responsible for using the school digital technology systems in accordance with the learner acceptable use agreement and Online Safety Policy (including use of personal devices for medical purposes)
- should understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- should know what to do if they or someone they know feels vulnerable when using online technology.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school.

Parents and carers

Parents and carers play a crucial role in ensuring that their children understand the need to use the online services and devices in an appropriate way.

The school will take every opportunity to help parents and carers understand these issues through:

- publishing the school Online Safety Policy on the school website
- providing them with a copy of the learners' acceptable use agreement
- publish information about appropriate use of social media relating to posts concerning the school.
- seeking their permissions concerning digital images, cloud services
- parents'/carers' evenings, newsletters, website, social media and information about national/local online safety campaigns and literature.

Parents and carers will be encouraged to support the school in:

- reinforcing the online safety messages provided to learners in school.
- the safe and responsible use of their children's personal devices in the school (where this is allowed)

Online Safety Group

The Online Safety Group provides a consultative group that has wide representation from the school community, with responsibility for issues regarding online safety and monitoring the Online Safety Policy including the impact of initiatives. Depending on the size or structure of the school this group may be part of the safeguarding group. The group will also be responsible for regular reporting to senior leaders and the governing body.

The Online Safety Group has the following members:

- Designated Safeguarding Lead
- Online Safety Lead
- Senior leaders
- Online safety governor

Members of the Online Safety Group assist the DSL with:

- the production/review/monitoring of the school Online Safety Policy/documents
- the production/review/monitoring of the school filtering policy and requests for filtering changes
- mapping and reviewing the online safety education provision – ensuring relevance, breadth and progression and coverage.
- reviewing network/filtering/monitoring/incident logs, where possible
- encouraging the contribution of learners to staff awareness, emerging trends and the school online safety provision
- consulting stakeholders – including staff/parents/carers about the online safety provision.
- monitoring improvement actions identified through use of the 360-degree safe self-review tool.

Professional Standards

There is an expectation that required professional standards will be applied to online safety as in other aspects of school life i.e., policies and protocols are in place for the use of online communication technology between the staff and other members of the school and wider community, using officially sanctioned school mechanisms.

Policy

Online Safety Policy

The school Online Safety Policy:

- sets expectations for the safe and responsible use of digital technologies for learning, administration, and communication
- allocates responsibilities for the delivery of the policy
- is regularly reviewed in a collaborative manner, taking account of online safety incidents and changes/trends in technology and related behaviours
- establishes guidance for staff in how they should use digital technologies responsibly, protecting themselves and the school and how they should use this understanding to help safeguard learners in the digital world
- describes how the school will help prepare learners to be safe and responsible users of online technologies
- establishes clear procedures to identify, report, respond to and record the misuse of digital technologies and online safety incidents, including external support mechanisms
- is supplemented by a series of related acceptable use agreements
- is made available to staff at induction and through normal communication channels
- is published on the school website.

Acceptable use

The school has defined what it regards as acceptable/unacceptable use and this is shown in the tables below.

Acceptable use agreements

The Online Safety Policy and acceptable use agreements define acceptable use at the school. The acceptable use agreements will be communicated/re-enforced through:

- staff induction
- digital signage
- posters/notices around where technology is used
- communication with parents/carers
- built into education sessions
- school website
- peer support.

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not access online content (including apps, games, sites) to make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Any illegal activity for example: <ul style="list-style-type: none"> • Child sexual abuse imagery* • Child sexual abuse/exploitation/grooming • Terrorism • Encouraging or assisting suicide • Offences relating to sexual images i.e., revenge and extreme pornography • Incitement to and threats of violence • Hate crime • Public order offences - harassment and stalking • Drug-related offences • Weapons / firearms offences 					X

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	<ul style="list-style-type: none"> Fraud and financial crime including money laundering 					
Users shall not undertake activities that might be classed as cyber-crime under the Computer Misuse Act (1990)	<ul style="list-style-type: none"> Using another individual's username or ID and password to access data, a program, or parts of a system that the user is not authorised to access (even if the initial access is authorised) Gaining unauthorised access to school networks, data and files, through the use of computers/devices Creating or propagating computer viruses or other harmful files Revealing or publicising confidential or proprietary information (e.g., financial / personal information, databases, computer / network access codes and passwords) Disable/Impair/Disrupt network functionality through the use of computers/devices Using penetration testing equipment (without relevant permission) 					X
Users shall not undertake activities that are not illegal but are classed as unacceptable in school policies:	Accessing inappropriate material/activities online in a school setting including pornography, gambling, drugs.				X	
	Promotion of any kind of discrimination				X	
	Using school systems to run a private business				X	
	Using systems, applications, websites or other mechanisms that bypass the filtering/monitoring or other safeguards employed by the school				X	

User actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
	Infringing copyright				X	
	Unfair usage (downloading/uploading large files that hinders others in their use of the internet)			X	X	
	Any other information which may be offensive to others or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Consideration should be given for the following activities when undertaken for non-educational purposes:	Staff and other adults				Learners			
	Not allowed	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission/awa
Online gaming								
Online shopping/commerce								
File sharing								
Social media								
Messaging/chat								
Entertainment streaming e.g. Netflix, Disney+								
Use of video broadcasting, e.g. YouTube, Twitch, TikTok								
Mobile phones may be brought to school								
Use of mobile phones for learning at school								
Use of mobile phones in social time at school								
Taking photos on mobile phones/cameras								

Use of other personal devices, e.g. tablets, gaming devices								
Use of personal e-mail in school, or on school network/wi-fi								
Use of school e-mail for personal e-mails								

When using communication technologies, the school considers the following as good practice:

- when communicating in a professional capacity, staff should ensure that the technologies they use are officially sanctioned by the school.
- any digital communication between staff and learners or parents/carers (e-mail, social media, learning platform, etc.) must be professional in tone and content.
- staff should be expected to follow good practice when using personal social media regarding their own professional reputation and that of the school and its community
- users should immediately report to a nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.

Reporting and responding

The school will take all reasonable precautions to ensure online safety for all school users but recognises that incidents may occur inside and outside of the school (with impact on the school) which will need intervention. The school will ensure:

- there are clear reporting routes , DSL/Headteacher which are understood and followed by all members of the school community which are consistent with the school safeguarding procedures, and with the whistleblowing, complaints and managing allegations policies.
- all members of the school community will be made aware of the need to report online safety issues/incidents
- reports will be dealt with as soon as is practically possible once they are received
- the Designated Safeguarding Lead, Online Safety Lead and other responsible staff have appropriate skills and training to deal with online safety risks.
- if there is any suspicion that the incident involves any illegal activity or the potential for serious harm ([see flowchart and user actions chart in the appendix](#)), the incident must be escalated through the agreed school safeguarding procedures, this may include

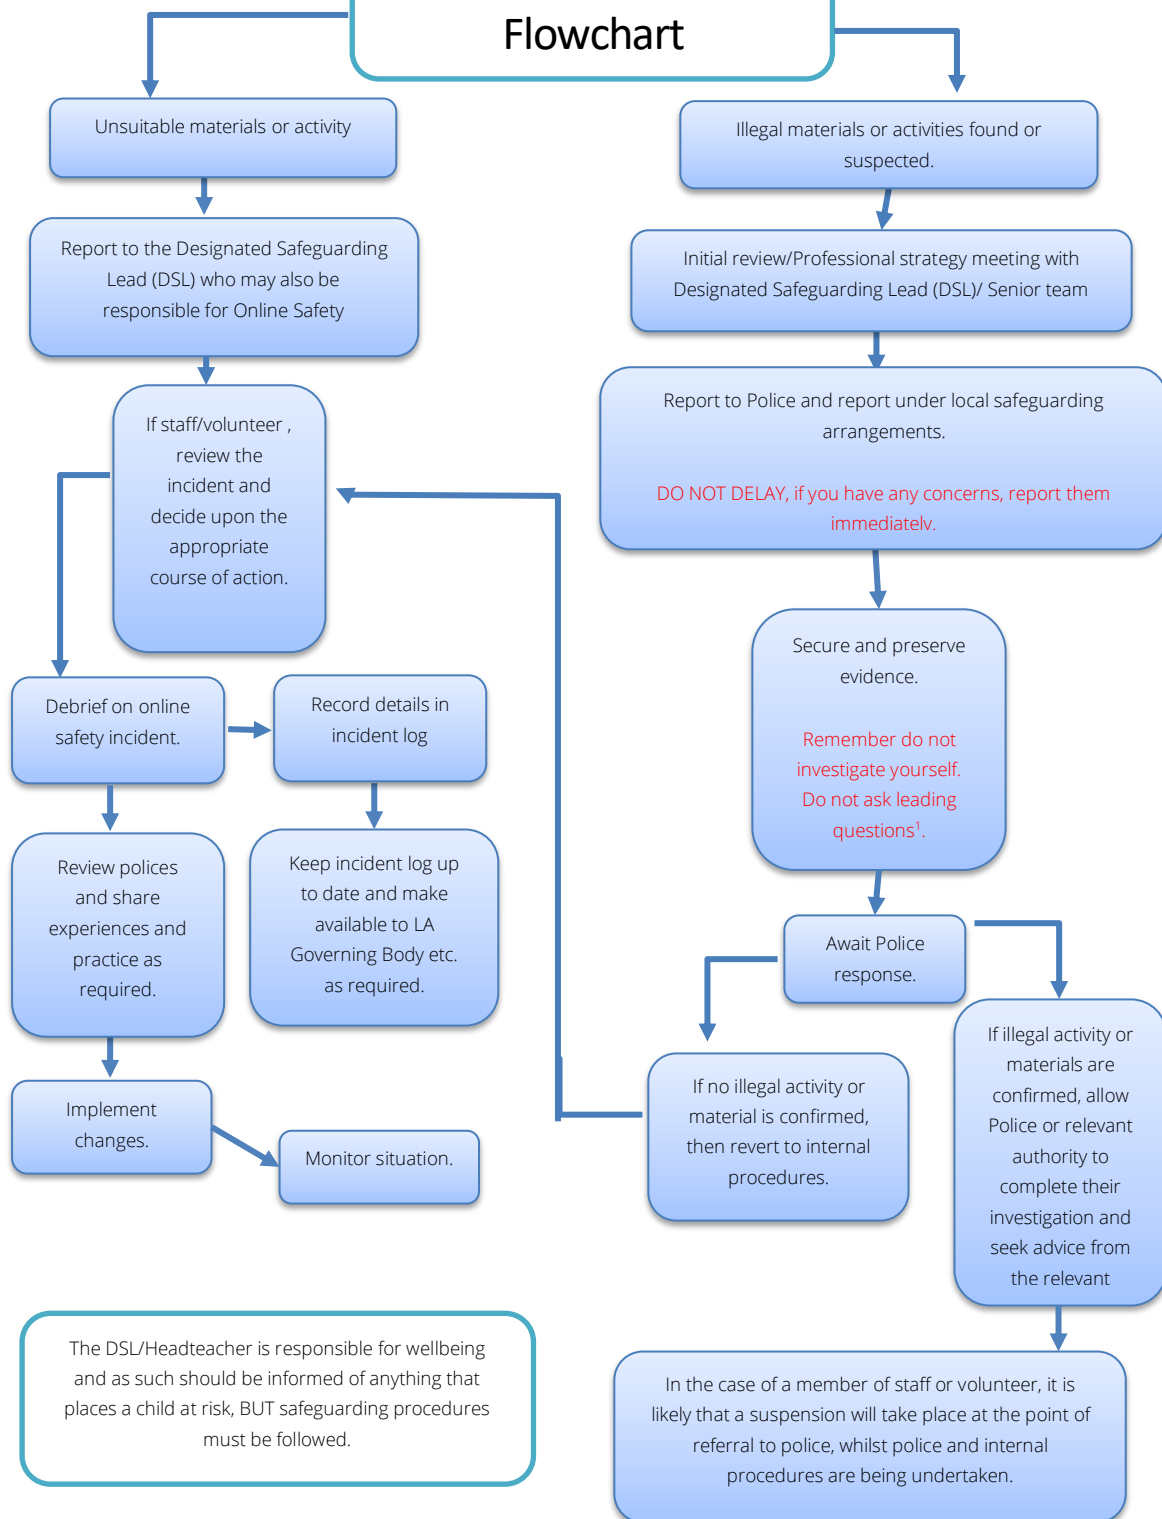

- Non-consensual images
 - Self-generated images
 - Terrorism/extremism
 - Hate crime/ Abuse
 - Fraud and extortion
 - Harassment/stalking
 - Child Sexual Abuse Material (CSAM)
 - Child Sexual Exploitation Grooming
 - Extreme Pornography
 - Sale of illegal materials/substances
 - Cyber or hacking
 - Copyright theft or piracy
- any concern about staff misuse will be reported to the Headteacher, unless the concern involves the Headteacher, in which case the complaint is referred to the Chair of Governors and the local authority.
- where there is no suspected illegal activity, devices may be checked using the following procedures:
 - one or more senior members of staff should be involved in this process. This is vital to protect individuals if accusations are subsequently reported.
 - conduct the procedure using a designated device that will not be used by learners and, if necessary, can be taken off site by the police should the need arise (should illegal activity be subsequently suspected). Use the same device for the duration of the procedure.
 - ensure that the relevant staff have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
 - record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed, and attached to the form
 - once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
 - internal response or discipline procedures
 - involvement by local authority
 - police involvement and/or action

- it is important that those reporting an online safety incident have confidence that the report will be treated seriously and dealt with effectively
- there are support strategies in place e.g., peer support for those reporting or affected by an online safety incident
- incidents should be logged
- relevant staff are aware of external sources of support and guidance in dealing with online safety issues, e.g. local authority; police.
- those involved in the incident will be provided with feedback about the outcome of the investigation and follow up actions
- learning from the incident (or pattern of incidents) will be provided (as relevant and anonymously) to:
 - the Online Safety Group for consideration of updates to policies or education programmes and to review how effectively the report was dealt with
 - staff, through regular briefings
 - learners, through assemblies/lessons
 - parents/carers, through newsletters, school social media, website
 - governors, through regular safeguarding updates
 - local authority/external agencies, as
 - The school will make the flowchart below available to staff to support the decision-making process for dealing with online safety incidents.

Online Safety Incident Flowchart

School actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Responding to Learner Actions

Incidents	Refer to class teacher/tutor	Refer to Headteacher	Refer to Police/Social Work	Refer to local authority technical support for advice/action	Inform parents/carers	Remove device/network/internet access	Issue a warning	Further sanction, in line with behaviour policy
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on User Actions on unsuitable/inappropriate activities).	X	X	X		x		X	
Attempting to access or accessing the school network, using another user's account (staff or learner) or allowing others to access school network by sharing username and passwords	X	X			X			
Corrupting or destroying the data of other users.	X	X			X		X	X
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X			X	X	X	X
Unauthorised downloading or uploading of files or use of file sharing.	X	X						

Accidentally accessing offensive or pornographic material and failing to report the incident.	X	X			X			
Deliberately accessing or trying to access offensive or pornographic material.	X	X	X	X	X	X	X	X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act.	X	X						
Unauthorised use of digital devices (including taking images)	X	X	X		X		X	
Unauthorised use of online services	X	X			X		X	
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X			X		X	
Continued infringements of the above, following previous warnings or sanctions.	X	X		X	X		X	X

Responding to Staff Actions

Incidents	Refer to line manager	Refer to Headteacher/ Principal	Refer to local authority/MAT/HR	Refer to Police	Refer to LA / Technical Support Staff for action re filtering, etc.	Issue a warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities)	X	X	X	X	X	X	X	
Deliberate actions to breach data protection or network security rules.	X	X				X		
Deliberately accessing or trying to access offensive or pornographic material	X	X	X	X	X	X	X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	X	X	X	X		X	X	
Using proxy sites or other means to subvert the school's filtering system.	X	X			X	X	X	
Unauthorised downloading or uploading of files or file sharing	X	X						
Breaching copyright or licensing regulations.	X	X	X					
Allowing others to access school network by sharing username and passwords or attempting to access or	X	X				X		

accessing the school network, using another person's account.								
Sending an e-mail, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X	X	X	X		
Using personal e-mail/social networking/messaging to carry out digital communications with learners and parents/carers	X	X	X			X		
Inappropriate personal use of the digital technologies e.g. social media / personal e-mail	X	X	X			X		
Careless use of personal data, e.g. displaying, holding or transferring data in an insecure manner	X	X				X		
Actions which could compromise the staff member's professional standing	X	X				X		
Actions which could bring the school into disrepute or breach the integrity or the ethos of the school.	X	X				X		
Failing to report incidents whether caused by deliberate or accidental actions	X	X				X	X	X
Continued infringements of the above, following previous warnings or sanctions.	X	X				X	X	X

Online Safety Education Programme

While regulation and technical solutions are particularly important, their use must be balanced by educating learners to take a responsible approach. The education of learners in online safety is therefore an essential part of the school's online safety provision. Learners need the help and support of the school to recognise and avoid online safety risks and develop their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways A planned online safety curriculum for all year groups matched against a nationally agreed framework and regularly taught in a variety of contexts.

- Lessons are matched to need; are age-related and build on prior learning.
- Lessons are context-relevant with agreed objectives leading to clear and evidenced outcomes.
- Learner need and progress are addressed through effective planning and assessment
- Digital competency is planned and effectively threaded through the appropriate digital pillars in other curriculum areas.
- it incorporates/makes use of relevant national initiatives and opportunities
- the programme will be accessible to learners at different ages and abilities such as those with additional learning needs or those with English as an additional language.
- vulnerability is actively addressed as part of a personalised online safety curriculum e.g., for victims of abuse and SEND.
- learners should be helped to understand the need for the learner acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school. Acceptable use is reinforced across the curriculum, with opportunities to discuss how to act within moral and legal boundaries online, with reference to the Computer Misuse Act 1990. Lessons and further resources are available on the [CyberChoices](#) site.
- staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that learners should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- where learners are allowed to freely search the internet, staff should be vigilant in supervising the learners and monitoring the content of the websites the young people visit

- it is accepted that from time to time, for good educational reasons, students may need to research topics, (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff should be able to request the temporary removal of those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need
- the online safety education programme should be relevant and up to date to ensure the quality of learning and outcomes.

Contribution of Learners

The school acknowledges, learns from, and uses the skills and knowledge of learners in the use of digital technologies. We recognise the potential for this to shape the online safety strategy for the school community and how this contributes positively to the personal development of young people. Their contribution is recognised through:

- mechanisms to canvass learner feedback and opinion.
- the Online Safety Group has learner representation
- learners contribute to the online safety education programme.
- contributing to online safety events with the wider school community e.g. parents' evenings, family learning programmes etc.

Staff/volunteers

The DfE guidance "Keeping Children Safe in Education" states:

"All staff should receive appropriate safeguarding and child protection training (**including online safety**) at induction. The training should be **regularly updated**. In addition, all staff should receive safeguarding and child protection (**including online safety**) updates (for example, via email, e-bulletins, and staff meetings), as required, and at least annually, to continue to provide them with relevant skills and knowledge to safeguard children effectively."

"Governing bodies and proprietors should ensure... that safeguarding training for staff, **including online safety** training, is integrated, aligned and considered as part of the whole school or college safeguarding approach and wider staff training and curriculum planning."

All staff will receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- a programme of online safety and data protection training will be made available to all staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- the training will be an integral part of the school's annual safeguarding and data protection training for all staff
- all new staff will receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements. It includes explicit reference to classroom management, professional conduct, online reputation and the need to model positive online behaviours.
- the Online Safety Lead and Designated Safeguarding Lead will receive regular updates by reviewing guidance documents released by relevant organisations
- this Online Safety Policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days
- the Designated Safeguarding Lead will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any sub-committee/group involved in technology/online safety/health and safety/safeguarding. This may be offered in several ways such as:

- attendance at training provided by the local authority or Governor hub/the key
- participation in school training / information sessions for staff or parents

A higher level of training will be made available to (at least) the Online Safety Governor. This will include:

- Training to allow the governor to understand the school's filtering and monitoring provision, in order that they can participate in the required checks and review.

Families

The school will seek to provide information and awareness to parents and carers through:

- regular communication, awareness-raising and engagement on online safety issues, curriculum activities and reporting routes
- regular opportunities for engagement with parents/carers on online safety issues through awareness workshops / parent/carer evenings etc
- the learners – who are encouraged to pass on to parents the online safety messages they have learned in lessons and by learners leading sessions at parent/carer evenings.
- letters, newsletters, website.
- high profile events / campaigns
- reference to the relevant web sites
- Sharing good practice with other schools in clusters and or the local authority

Adults and Agencies

The school will provide opportunities for local community groups and members of the wider community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- online safety messages targeted towards families and relatives.
- providing online safety information via their website and social media for the wider community

Technology

The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. The school should ensure that all staff are made aware of policies and procedures in place on a regular basis and explain that everyone is responsible for online safety and data protection.

Filtering & Monitoring

The school filtering and monitoring provision is agreed by senior leaders, governors and the IT Service Provider and is regularly reviewed (at least annually) and updated in response to changes in technology and patterns of online safety incidents/behaviours

Day to day management of filtering and monitoring systems requires the specialist knowledge of both safeguarding and IT staff to be effective. The DSL will have lead responsibility for safeguarding and online safety and the IT service provider will have technical responsibility

the filtering and monitoring provision is reviewed (at least annually) by senior leaders, the Designated Safeguarding Lead and a governor with the involvement of the IT Service Provider.

- checks on the filtering and monitoring system are carried out by the IT Service Provider with the involvement of a senior leader, the Designated Safeguarding Lead and a governor, in particular when a safeguarding risk is identified, there is a change in working practice, e.g. remote access or new technology is introduced using SWGfL Test Filtering

Filtering

- the school manages access to content across its systems for all users and on all devices using the schools internet provision. The filtering provided meets the standards defined in the DfE **Filtering standards for schools and colleges** and the guidance provided in the UK Safer Internet Centre Appropriate filtering.
- illegal content (e.g., child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and the police assessed list of unlawful terrorist content, produced on behalf of the Home Office. Content lists are regularly updated
- there are established and effective routes for users to report inappropriate content, recognising that no system can be 100% effective
- there is a clear process in place to deal with, and log, requests/approvals for filtering changes ([see Appendix for more details](#)).
- filtering logs are regularly reviewed and alert the Designated Safeguarding Lead to breaches of the filtering policy, which are then acted upon.
- younger learners will use child friendly/age-appropriate search engines

- the school has a mobile phone policy and where personal mobile devices have internet access through the school network, content is managed in ways that are consistent with school policy and practice.
- access to content through non-browser services (e.g. apps and other mobile technologies) is managed in ways that are consistent with school policy and practice.

If necessary, the school will seek advice from, and report issues to, the SWGfL [Report Harmful Content](#) site.

Monitoring

The school has monitoring systems in place to protect the school, systems and users:

- The school monitors all network use across all its devices and services.
- monitoring reports are urgently picked up, acted on and outcomes are recorded by the Designated Safeguarding Lead, all users are aware that the network (and devices) are monitored.
- There are effective protocols in place to report abuse/misuse. There is a clear process for prioritising response to alerts that require rapid safeguarding intervention.
- Management of serious safeguarding alerts is consistent with safeguarding policy and practice.

The school follows the UK Safer Internet Centre Appropriate Monitoring guidance and protects users and school systems through the use of the appropriate blend of strategies informed by the school's risk assessment.

- physical monitoring (adult supervision in the classroom)
- internet use is logged, regularly monitored and reviewed
- filtering logs are regularly analysed and breaches are reported to senior leaders
- pro-active alerts inform the school of breaches to the filtering policy, allowing effective intervention.
- use of a third-party assisted monitoring service to review monitoring logs and report issues to school monitoring lead(s)

Technical Security

The school technical systems will be managed in ways that ensure that the school meets recommended technical requirements

responsibility for technical security resides with SLT who may delegate activities to identified roles.

- all users have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the IT service provider and will be reviewed, at least annually, by the SLT/Online Safety Group
- password policy and procedures are implemented.
- the security of their username and password and must not allow other users to access the systems using their log on details.
- all users have responsibility for the security of their username and password and must not allow other users to access the systems using their log on details.
- all school networks and system will be protected by secure passwords. Passwords must not be shared with anyone.
- the administrator passwords for school systems are kept in a secure place, e.g., school safe.
- there is a risk-based approach to the allocation of learner usernames and passwords.
- there will be regular reviews and audits of the safety and security of school technical systems.
- servers, wireless systems and cabling are securely located and physical access restricted.
- appropriate security measures are in place (to protect the servers, firewalls, routers, wireless systems and devices from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up-to-date endpoint software.
- there are rigorous and verified back-up routines, including the keeping of network-separated (air-gapped) copies off-site or in the cloud,
- The School business manager is responsible for ensuring that all software purchased by and used by the school is adequately licenced and that the latest software updates (patches) are applied.
- an appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed)
- use of school devices out of school and by family members is regulated by an acceptable use statement that a user consents to when the device is allocated to them.
- personal use of any device on the school network is regulated by acceptable use statements that a user consents to when using the network.

- staff members are not permitted to install software on a school-owned devices without the consent of the SLT/IT service provider.
- removable media is not permitted unless approved by the SLT/IT service provider.
- systems are in place to control and protect personal data and data is encrypted at rest and in transit.
- mobile device security and management procedures are in place. We use authenticator to access Microsoft office suite.
- guest users are provided with appropriate access to school systems based on an identified risk profile.

Mobile technologies

The school acceptable use agreements for staff, learners, parents, and carers outline the expectations around the use of mobile technologies.

The school allows:

	School devices			Personal devices		
	School owned for individual use	School owned for multiple users	Authorised device ³	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	*Yes	*Yes
Full network access	Yes	Yes	Yes		No	No
Internet only	Yes	Yes	Yes	Yes	Yes	Yes

³ Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school.

No network access						
-------------------	--	--	--	--	--	--

- in line with the school's policy on use of personal devices.
 - there is an asset log that clearly states whom a device has been allocated to. There is clear guidance on where, when and how use is allowed.
 - personal use (e.g., online banking, shopping, images etc.) is clearly defined and expectations are well-communicated.
 - the use of devices on trips/events away from school is clearly defined and expectation are well-communicated.
 - liability for damage aligns with current school policy for the replacement of equipment.
 - education is in place to support responsible use.

Personal devices:

- there is a clear policy covering the use of personal mobile devices on school premises for all users.
- where devices are used to support learning, staff have been trained in their planning, use and implementation, ensuring that all learners can access a required resource.
- where personal devices are brought to school, but their use is not permitted, appropriate, safe and secure storage should be made available.
- use of personal devices for school business is defined in the acceptable use policy and staff handbook. Personal devices commissioned onto the school network are segregated effectively from school-owned systems.
- the expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.
- liability for loss/damage or malfunction of personal devices is clearly defined.
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements.
- education about the safe and responsible use of mobile devices is included in the school online safety education programmes.

Social media

The school provides the following measures to ensure reasonable steps are in place to minimize risk of harm to learners through:

- ensuring that personal information is not published.
- education/training being provided including acceptable use, age restrictions, social media risks, digital and video images policy, checking of settings, data protection and reporting issues.
- clear reporting guidance, including responsibilities, procedures, and sanctions.
- risk assessment, including legal risk.
- guidance for learners, parents/carers

School staff should ensure that:

- No reference should be made in social media to learners, parents/carers or school staff.
- They do not engage in online discussion on personal matters relating to members of the school community.
- personal opinions should not be attributed to the school.
- security settings on personal social media profiles are regularly checked to minimize risk of loss of personal information.
- they act as positive role models in their use of social media.

When official school social media accounts are established, there should be:

- a process for approval by senior leaders
- clear processes for the administration, moderation, and monitoring of these accounts – involving at least two members of staff.
- a code of behaviour for users of the accounts
- systems for reporting and dealing with abuse and misuse.
- understanding of how incidents may be dealt with under school disciplinary procedures.

Personal use

- personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
- personal communications which do not refer to or impact upon the school are outside the scope of this policy.

- where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.
- the school permits reasonable and appropriate access to personal social media sites during school hours.

Monitoring of public social media

- As part of active social media engagement, the school may pro-actively monitor the Internet for public postings about the school.
- the school should effectively respond to social media comments made by others according to a defined policy or process.
- when parents/carers express concerns about the school on social media we will urge them to make direct contact with the school, in private, to resolve the matter. Where this cannot be resolved, parents/carers should be informed of the school complaints procedure.

Digital and video images

The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- the school may use live-streaming or video-conferencing services in line with national and local safeguarding guidance / policies.
- when using digital images, staff will inform and educate learners about the risks associated with the taking, use, sharing, publication and distribution of images.
- staff/volunteers must be aware of those learners whose images must not be taken/published. Those images should only be taken on school devices. The personal devices of staff should not be used for such purposes.
- in accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.
- staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, storage, distribution and publication of those images.

- care should be taken when sharing digital/video images that learners are appropriately dressed.
- learners must not take, use, share, publish or distribute images of others without their permission.
- photographs published on the website, or elsewhere that include learners will be selected carefully and will comply with Online Safety Policy
- learners' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- written permission from parents or carers will be obtained before photographs of learners are taken for use in school or published on the school website/social media.
- parents/carers will be informed of the purposes for the use of images, how they will be stored and for how long – in line with the school data protection policy.
- images will be securely stored in line with the school retention policy.
- learners' work can only be published with the permission of the learner and parents/carers.

Online Publishing

The school communicates with parents/carers and the wider community and promotes the school through Public-facing website

- Social media
- Online newsletters

The school website is managed/hosted by Juniper education. The school ensures that online safety policy has been followed in the use of online publishing e.g., use of digital and video images, copyright, identification of young people, publication of school calendars and personal information – ensuring that there is least risk to members of the school community, through such publications.

Where learner work, images or videos are published, their identities are protected, and full names are not published.

The school public online publishing provides information about online safety e.g., publishing the schools Online Safety Policy and acceptable use agreements; curating latest advice and guidance; news articles etc, creating an online safety page on the school website.

The website includes an online reporting process for parents and the wider community to register issues and concerns to complement the internal reporting process.

Data Protection

Personal data will be recorded, processed, transferred, and made available according to the current data protection legislation.

The school:

- has a Data Protection Policy.
- implements the data protection principles and can demonstrate that it does so
- has paid the appropriate fee to the Information Commissioner's Office (ICO)
- has appointed an appropriate Data Protection Officer (DPO) who has effective understanding of data protection law and is free from any conflict of interest.
- has a 'Record of Processing Activities' in place and knows exactly what personal data is held, where why and which member of staff has responsibility for managing it
- the Record of Processing Activities lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis is listed.
- information asset register lists the lawful basis for processing personal data (including, where relevant, consent). Where special category data is processed, an additional lawful basis will have also been listed.
- will hold the minimum personal data necessary to enable it to perform its function and will not hold it for longer than necessary for the purposes it was collected for. The school 'retention schedule' supports this.
- data held is accurate and up to date and is held only for the purpose it was held for. Systems are in place to identify inaccuracies, such as asking parents to check emergency contact details at suitable intervals.
- provides staff, parents, volunteers, teenagers, and older children with information about how the school looks after their data and what their rights are in a clear Privacy Notice.
- has procedures in place to deal with the individual rights of the data subject.
- carries out Data Protection Impact Assessments (DPIA) where necessary e.g. to ensure protection of personal data when accessed using any remote access solutions, or entering into a relationship with a new supplier
- has undertaken appropriate due diligence and has data protection compliant contracts in place with any data processors.

- understands how to share data lawfully and safely with other relevant data controllers.
- has clear and understood policies and routines for the deletion and disposal of data.
- reports any relevant breaches to the Information Commissioner within 72hrs of becoming aware of the breach as required by law. It also reports relevant breaches to the individuals affected as required by law. In order to do this, it has a policy for reporting, logging, managing, investigating and learning from information risk incidents.
- has a Freedom of Information Policy which sets out how it will deal with FOI requests.
- provides data protection training for all staff at induction and appropriate refresher training thereafter. Staff undertaking particular data protection functions, such as handling requests under the individual's rights, will receive training appropriate for their function as well as the core training provided to all staff.

When personal data is stored on any mobile device or removable media the:

- data will be encrypted, and password protected.
- device will be password protected.
- device will be protected by up-to-date endpoint (anti-virus) software.
- data will be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Staff must ensure that they:

- at all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- can recognise a possible breach, understand the need for urgency and know who to report it to within the school.
- can help data subjects understand their rights and know how to handle a request whether verbal or written and know who to pass it to in the school.
- only use encrypted data storage for personal data
- will not transfer any school personal data to personal devices.
- use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- transfer data using encryption, a secure email account (where appropriate), and secure password protected devices.

Outcomes

The impact of the Online Safety Policy and practice is regularly evaluated through the review/audit of online safety incident logs; behaviour/bullying reports; surveys of staff, learners; parents/carers and is reported to relevant groups:

- there is balanced professional debate about the evidence taken from the reviews/audits and the impact of preventative work e.g., online safety education, awareness, and training.
- there are well-established routes to regularly report patterns of online safety incidents and outcomes to school leadership and Governors.
- parents/carers are informed of patterns of online safety incidents as part of the school's online safety awareness raising.
- online safety (and related) policies and procedures are regularly updated in response to the evidence gathered from these reviews/audits/professional debate.
- the evidence of impact is shared with other schools, agencies and LAs to help ensure the development of a consistent and effective local online safety strategy.

School Online Safety Appendices

Appendices

- A2 - Learner Acceptable Use Agreement – KS2
- A3 - Learner Acceptable Use Agreement – for younger learners (Foundation/KS1)
- A4 - Parent/Carer Acceptable Use Agreement
- A5 - Staff (and Volunteer) Acceptable Use Policy Agreement
- A7 – Online Safety Group Terms of Reference
- A8 - Harmful Sexual Behaviour Policy
- A9 - Responding to incidents of misuse – flow chart
- A10 - Record of reviewing devices/internet sites (responding to incidents of misuse)
- A11 - Reporting Log
- B1 - Training Needs Audit Log
- C1 - Technical Security Policy
- C3 - School Online Safety Policy Electronic Devices - Searching Screening and Confiscation (new DfE guidance from September 2022)
- C4 - Mobile Technologies Policy
- C5 - Social Media Policy

Learner Acceptable Use Agreement – for KS2

Introduction

Digital technologies have become integral to the lives of children and young people, both within and outside schools. These technologies are powerful tools, which open-up new opportunities for everyone. They can stimulate discussion, encourage creativity, and stimulate awareness of context to promote effective learning. Learners should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended:

- to ensure that learners will have good access to devices and online content, be responsible users and stay safe while using digital technologies for educational, personal and recreational use.
- to help learners understand good online behaviours that they can use in school, but also outside school.
- to protect school devices and networks from accidental or deliberate misuse that could put the security of the systems and users at risk.

Acceptable Use Agreement

When I use devices, I must behave responsibly to help keep me and other users safe online and to look after the devices.

For my own personal safety:

- I understand that what I do online will be supervised and monitored and that I may not be allowed to use devices in school unless I follow these rules and use them responsibly.
- I will only visit internet sites that adults have told me are safe to visit.
- I will keep my username and password safe and secure and not share it with anyone else.
- I will be aware of "stranger danger" when I am online.
- I will not share personal information about myself or others when online.
- I will immediately tell an adult if I see anything that makes me feel uncomfortable when I see it online.

I will look after the devices I use, so that the school and everyone there can be safe:

- I will handle all the devices carefully and only use them if I have permission.
- I will not try to alter the settings on any devices or try to install any software or programmes.
- I will tell an adult if a device is damaged or if anything else goes wrong.
- I will only use the devices to do things that I am allowed to do
- I will think about how my behaviour online might affect other people:
- When online, I will act as I expect others to act toward me.
- I will not copy anyone else's work or files without their permission.
- I will be polite and responsible when I communicate with others, and I appreciate that others may have different opinions to me.
- I will not take or share images of anyone without their permission.

I know that there are other rules that I need to follow:

- I will only use my own personal devices (mobile phones/USB devices etc.) in the school if I have permission. If I am allowed, I still have to follow all the other school rules if I use them.
- Where work is protected by copyright, I will not try to download copies (including music and videos).
- When I am using the internet to find information, I should take care to check that the information is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.
- I should have permission if I use the original work of others in my own work.

I understand that I am responsible for my actions, both in and out of school:

- I know that I am expected to follow these rules in school and that I should behave in the same way when out of school as well.
- I understand that if I do not follow these rules, my actions will have consequences and parent/carers will be informed and in the event of illegal activities involvement of the police.

Learner Acceptable Use Agreement Form

Please complete the sections below to show that you have read, understood and agree to the rules included in the acceptable use agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones.
- I am out of school and involved in any online behaviour that might affect the school or other members of the school.

Parent/Carer Countersignature

Learner Acceptable Use Agreement – for younger learners KS1

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers/tablets.
- I will only use activities that a teacher or suitable adult has told or allowed me to use.
- I will take care of computers/tablets and other equipment.
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong.
- I will tell a teacher or suitable adult if I see something that upsets me on the screen.
- I know that if I break the rules, I might not be allowed to use a computer/tablet.

Signed (parent):

Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open new opportunities for everyone. They can stimulate discussion, promote creativity, and stimulate awareness of context to promote effective learning. Young people should always have an entitlement to safe internet access.

This acceptable use policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

The school will try to ensure that learners have good access to digital technologies to enhance their learning and will, in return, expect the learners to agree to be responsible users. A copy of the learner acceptable use agreement is attached to this permission form, so that parents/carers will be aware of the school expectations of the young people in their care.

Parents are requested to sign the permission form below to show their support of the school in this important aspect of the school's work.

Permission Form

Parent/Carers Name:

Learner Name:

As the parent/carers of the above learners, I give permission for my son/daughter to have access to the digital technologies at school.

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they have received, or will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

As the schools is collecting personal data by issuing this form:

This form (electronic or printed)
School staff will have access to the form
This form will be stored safely in the school or on the school server.
This form will be stored for the duration of your child's time at Waterside Primary School.
This form will be destroyed by electronic shredding when no longer required.

Signed:

Date:

Use of Digital/Video Images

The use of digital/video images plays an important part in learning activities. Learners and members of staff may use digital cameras to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. Where an image is publicly shared by any means, only your child's first name/initials will be used.

The school will comply with the Data Protection Act and request parent's/carer's permission before taking images of members of the school. We will also ensure that when images are published that the young people cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other learners in the digital/video images.

As the school is collecting personal data by issuing this form, it should inform parents/carers as to:

This form (electronic or printed)	The images
Only school staff will have access to this form	Images may be published. On Facebook, the school's website, local press.
This form will be stored securely in school or on the school server.	Only school staff and out third party IT support will have access to the images.
This form will be stored for the length of time your child is in school.	The images will be stored securely on the school server and deleted from school cameras.

This form will be destroyed by electronic shredding or deletion from the school server.	A request for deletion of school images can be made through the school office. adminoffice@waterside.hants.sch.uk

Date:

Use of Cloud Systems Permission Form

The school uses Google classroom for learners and staff. This permission form describes the tools and learner responsibilities for using these services.

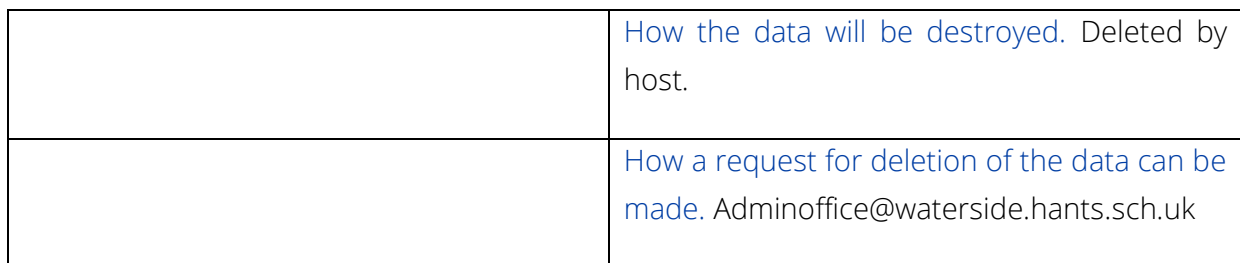

The following services are available to each learner as part of the school's online presence in Google classroom.

Using Google classroom will enable your child to collaboratively create, edit and share files and websites for school related projects and communicate via email with other learners and members of staff. These services are entirely online and available 24/7 from any internet-connected computer.

The school believes that use of the tools significantly adds to your child's educational experience.

As the school is collecting personal data and sharing this with a third party, it should inform parents/carers about:

This form (electronic or printed)	The data shared with the service provider
Who will have access to this form. School staff	What data will be shared Name and identity data
Where this form will be stored. Secure in school	Who the data will be shared with Third party IT support and service provider.
How long this form will be stored for. In line with school retention policy	Who will have access to the data. School staff
How this form will be destroyed. Shredded and disposed of by confidential waste contractor.	Where the data will be stored. Cloud service hosted by Google.
	How long the data will be stored for Whilst your child attends Waterside Primary School. Accounts are deleted when they leave.

On the following pages we have copied, for the information of parents and carers, the learner acceptable use agreement.

Staff (and Volunteer) Acceptable Use Policy Agreement

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should always have an entitlement to safe access to the internet and digital technologies.

This acceptable use policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that learners receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.

- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (e.g. on the school website/VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with learners and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school has the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up-to-date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school's ICT systems.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, terrorist or extremist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others.

I will not try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.

- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based documents containing personal data must be held in lockable storage.
- I understand that data protection policy requires that any staff or learner data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the online systems in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the school:

- I understand that this acceptable use policy applies not only to my work and use of school's digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this acceptable use agreement, I could be subject to disciplinary action or involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff/Volunteer Name:

Signed:..... Date:

School Policy – Online Safety Group Terms of Reference

1. Purpose

To provide a consultative group that has wide representation from Waterside primary school community, with responsibility for issues regarding online safety and the monitoring the online safety policy including the impact of initiatives.

2. Membership

- The online safety group will seek to include representation from all stakeholders.
- DSL
- Online Safety Lead (OSL)
- Teaching staff member
- Support staff member
- Governor
- Parent/Carer
- IT Support Provider
-

- 2.1. Other people may be invited to attend the meetings at the request of the Chairperson on behalf of the committee to provide advice and assistance where necessary.
- 2.2. Committee members must declare a conflict of interest if any incidents being discussed directly involve themselves or members of their families.
- 2.3. Committee members must be aware that many issues discussed by this group could be of a sensitive or confidential nature
- 2.4. When individual members feel uncomfortable about what is being discussed they should be allowed to leave the meeting with steps being made by the other members to allow for these sensitivities

3. Chairperson

The Committee should select a suitable Chairperson from within the group. Their responsibilities include:

- Scheduling meetings and notifying members.
- Inviting other people to attend meetings when required.
- Guiding the meeting according to the agenda and time available;
- Ensuring all discussion items end with a decision, action or definite outcome.
- Making sure that notes are taken at the meetings and that these with any action points are distributed as necessary.

4. Duration of Meetings

Meetings shall be held annually.

5. Functions

These are to assist the DSL/OSL (or other relevant person) with the following:

To keep up to date with new developments in the area of online safety

- To (at least) annually review and develop the online safety policy in line with new technologies and incidents
- To monitor the delivery and impact of the online safety policy
- To monitor the log of reported online safety incidents (anonymous) to inform future areas of teaching/learning/training.
- To co-ordinate consultation with the whole school community to ensure stakeholders are up to date with information, training and/or developments in the area of online safety. This could be carried out through:
 - Staff meetings
 - Learner forums (for advice and feedback)
 - Governors meetings
 - Surveys/questionnaires for learners, parents/carers and staff
 - Parents evenings
 - Website/newsletters
 - Online safety events
 - Internet Safety Day (annually held on the second Tuesday in February)
 - Other methods
- To ensure that monitoring is carried out of Internet sites used across the schools.
- To monitor filtering/change control logs (e.g. requests for blocking/unblocking sites).
- To monitor the safe use of data across the schools
- To monitor incidents involving cyberbullying for staff and learners

6. Amendments

The terms of reference shall be reviewed annually from the date of approval. They may be altered to meet the current needs of all committee members, by agreement of the majority. The above Terms of Reference for Waterside Primary School have been agreed.

Signed by (SLT):Date:.....

Date for review:

Policy for Harmful Sexual Behaviour

Statement of intent

Our school has a zero-tolerance approach to any harmful sexual behaviour involving children and acknowledge that it could be occurring at Waterside Primary school and in our school community. The school is proactive in its approach to assessing prevalence, responding to incidents and challenging and changing behaviour. This policy applies to all governors, staff and learners.

Schools and colleges have a statutory duty to safeguarding the children in their setting. We work together to foster an environment that creates healthy relationships for children and young people.

Our whole-school approach encourages healthy relationships and works to prevent harmful sexual behaviour. We provide high quality education within the curriculum to reduce the likelihood of the situations occurring.

We recognise that HSB is harmful to both the child/children affected by the behaviours and the child/children who displayed the behaviour and provide ongoing support for all involved.

Our approach is to treat everything as safeguarding incident in the first instance - we distinguish between behaviours that are exploratory and part of healthy age and ability appropriate development and those that may be harmful.

As a school we provide regular opportunities for school staff to understand what harmful sexual behaviours might look like and what they should do in the event of a report.

Related policies

This policy should be read in conjunction with:

- Child protection and safeguarding policy
- Whistleblowing
- Behaviour policy
- Anti-bullying policy
- Online safety

- Acceptable Use Agreement

Definitions

As stated in the Sexual Offences Act 2003, the term Harmful Sexual Behaviour (HSB) covers a wide range of behaviours, often these may be considered problematic, abusive, or violent and may also be developmentally inappropriate. HSB can occur online, offline or in a blend of both environments. The term HSB is widely acknowledged in child protection and should be treated in this context.

Whilst peer on peer harassment has become a widely recognised term, this is already moving towards child on child in recognition that age and development is a factor in making decisions about behaviour. A significant age difference between the children involved in an incident may lead to a decision about the behaviour being harmful or not. For example, this could be an older child's behaviour towards a pre-pubescent child, or a younger child's behaviour towards an older child with learning difficulties. It is important that Designated Safeguarding Leads (DSL) know what is and is not HSB. DSLs should be involved in planning the curriculum for HSB, planning preventative actions and ensuring a whole-schools culture that condones HSB, alongside all other forms of abuse and harassment. This template policy provides a basis for an effective approach to managing sexual violence and harassment.

What is sexual violence?

The following are sexual offences under the Sexual Offences Act 2003:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not

reasonably believe that B consents. (NOTE- Schools and colleges should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent, or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (NOTE – this could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

What is sexual harassment?

Keeping Children Safe in Education Guidance 2022 and the Sexual Violence and sexual harassment between children in schools and colleges state:

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline and both inside and outside of school/college. When we reference sexual harassment, we do so in the context of child-on-child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names
- sexual "jokes" or taunting
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence – it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
 - consensual and non-consensual sharing of nude and semi-nude images and/or videos. Taking and sharing nude photographs of U18s is a criminal offence.
 - sharing of unwanted explicit content
 - up skirting (this is a criminal offence)
 - sexualised online bullying.
 - unwanted sexual comments and messages, including, on social media.

- o sexual exploitation; coercion and threats.

It is important that schools and colleges consider sexual harassment in broad terms. Sexual harassment (as set out above) creates a culture that, if not challenged, can normalise inappropriate behaviours and provide an environment that may lead to sexual violence.

Responsibilities

Leaders and DSLs

Our leaders and DSLs have ultimate responsibility in dealing with all incidents of harmful sexual behaviour, including online. It is the expectation that all incidents of harmful sexual behaviour/sexual violence and harassment are reported in line with school safeguarding and child protection procedures.

We ensure that our designated safeguarding lead/s (DSL) and their deputies are confident in school safeguarding processes and when it is necessary to escalate. Our DSLs know what local and national specialist support is available to support all children involved in harmful sexual behaviour and are confident as to how to access this support when required.

Designated safeguarding lead/s and their deputies have an in-depth working knowledge of key documentation, particularly KCSIE 2022 and Sexual Violence and Sexual Harassment Between Children in Schools and Colleges (DfE 2021). We ensure that they receive appropriate specialist training, commensurate with their role and that ongoing training is provided for all school staff.

It is the role of school leaders and designated safeguarding leads to ensure that all staff and Governors receive training specific to harmful sexual behaviour, and that it is included as part of induction.

Staff

It is the responsibility of all staff to have read and understood this policy and associated policies. All staff must report any incidents or suspected incidents of harmful sexual behaviour to DSLs in line with school policy and ensure they are informed of the outcome. All staff will challenge any harmful sexual language or inappropriate behaviour. Staff have a duty to ensure that the

school environment is one which is safe and which supports learners to understand safe and healthy relationships and appropriate behaviour through delivery of our curriculum.

Governors

We ensure that our trust board/governing body have a good understanding of what harmful sexual behaviour is, when it can pose a risk to children and how to keep children safe. Our trustees/governors receive regular training and updates, both in terms of what sexualised behaviour is, but also how to effectively support establishments and their stakeholders whilst holding provision to account.

As part of the headteacher's report, our trust board/governing body has the opportunity to monitor and evaluate the approach to harmful sexual behaviour to ensure it is adequate and effective. This includes evaluation of the curriculum, pupil voice activity and evaluation of parent/carer engagement. Trustees/Governors ensure that risks relating to these issues are identified, that a number of reporting routes are available, and that risks are effectively mitigated.

Learners

All learners have the right to learn in a safe, healthy and respectful school environment. Our learners benefit from a broad and balanced curriculum and are taught about healthy relationships and know how and when to report and that a range of different reporting routes is available to them. Our learners are encouraged to report any harmful sexual behaviour, even if they are not directly involved. All learners will be believed if they make a disclosure and will be treated sensitively - whilst we cannot guarantee confidentiality, their thoughts and wishes will be taken into account when supporting them.

Parents/carers

We work hard to engage parents and carers by:

- regular in school sessions
- sharing newsletters
- sharing information online e.g., website, social media
- providing curriculum information

Our parents and carers are made aware of how and when to report any concerns to the school, that all incidents will be handled with care and sensitivity, and that it may sometimes be necessary to involve other agencies.

Vulnerable groups

We recognise that, nationally, vulnerable learners are three times more likely to be at risk from Harmful Sexual Behaviour. These include:

- A child with additional needs and disabilities.
- A child living with domestic abuse.
- A child who is at risk of/suffering significant harm.
- A child who is at risk of/or has been exploited or at risk of exploited (CRE, CSE),
- A care experienced child.
- A child who goes missing or is missing education.
- Children who identify as, or are perceived as, LGBTQI+ and/or any of the other protected characteristics.

Children displaying HSB have often experienced their own abuse and trauma. We ensure that any vulnerable learner is offered appropriate support, both within and outside school, sometimes via specialist agencies.

Reporting

Our systems are well promoted, easily understood and easily accessible for children and young people to confidently report abuse, knowing their concerns will be treated seriously. All reports will be dealt with swiftly and sensitively and outcomes shared where appropriate. We also respond to anonymous reports, or reports made by third parties. This can be done via:

- links to national or local organisations
- the school DSL

Responding to an incident or disclosure

In this policy we recognise the importance of distinguishing between healthy, problematic and sexually harmful behaviour (HSB)

Our response is always based on sound safeguarding principles and follows school safeguarding processes. It is calm, considered and appropriate and puts the learner at the centre of all decisions made.

The school will always adopt a multi-agency approach and seek external support and guidance, in line with school policy, if deemed necessary. This may include:

List relevant agencies e.g., MASH, Early Help, CAMHS, Police etc

Risk assessment

The school may deem it necessary to complete a harmful sexual behaviour risk assessment as part of the response to any reported incidents. The purpose of the risk assessment is to protect and support **all those involved** by identifying potential risk, both in and out of school (e.g., including public transport, after school clubs etc) and by clearly describing the strategies put in place to mitigate such risk.

The risk assessment will be completed following a meeting with all professionals working with the learner, as well as parents or carers. Where appropriate, the learners involved will also be asked to contribute.

The risk assessment will be shared with all staff who work with the learner, as well as parents and carers. It will be dynamic and will respond to any changes in behaviour and will be regularly evaluated to assess impact.

Education

Our school's educational approach seeks to develop knowledge and understanding of healthy, problematic, and sexually harmful behaviours, and empowers young people to make healthy,

informed decisions. Our school's approach is delivered predominantly through PSHE and RSE and additional opportunities are provided through:

- Cross curricular programmes
- Computing

Our approach is given the time it deserves and is authentic i.e., based on current issues nationally, locally and within our setting. It is shaped and evaluated by learners and other members of the school community to ensure that it is dynamic, evolving and based on need. We do this by:

- Parental engagement
- Staff consultation
- Staff training

Training

It is effective safeguarding practice for the designated safeguarding lead (and their deputies) to have a good understanding of HSB. This could form part of their safeguarding training. This will aid in planning preventative education, implementing preventative measures, drafting and implementing an effective child protection policy and incorporating the approach to sexual violence and sexual harassment into the whole school or college approach to safeguarding.

- Brook traffic light tool
- NSPCC training
- Whole staff training

A clear training strategy which supports staff to respond effectively to different types of harassment and sexual misconduct incidents. This should involve an assessment of the training needs of all staff. This strategy should be reviewed and evaluated on a regular basis to ensure it is fit for purpose.

Training should be made available on an ongoing basis for all staff and students to raise awareness of harassment and sexual misconduct with the purpose of preventing incidents and encouraging reporting where they do occur.

Waterside Primary School Technical Security Policy (including filtering, monitoring and passwords)

Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. This is informed by the Department for Education (DfE) guidance, Keeping Children Safe in Education. The school is responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- access to personal data is securely controlled in line with the school's personal data policy.
- system logs are maintained and reviewed to monitor user activity.
- there is effective guidance and training for users.
- there are regular reviews and audits of the safety and security of school computer systems, including filtering and monitoring provision.

Responsibilities

Education settings are directly responsible for ensuring they have the appropriate level of security protection procedures in place in order to safeguard their systems, staff and learners and review the effectiveness of these procedures periodically to keep up with evolving cyber-crime technologies. The management of technical security is the responsibility of Governors and Senior Leaders, supported in this by the Designated Safeguarding Lead, Online Safety Lead and IT Service Provider.

Policy statements

The school is responsible for ensuring that their infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people receive guidance and training and will be effective in carrying out their responsibilities:

- school technical systems will be managed in ways that ensure that the school meets recommended technical requirements.
- cyber security is included in the school risk register.
- there will be regular reviews and audits of the safety and security of school technical systems.
- servers, wireless systems, and cabling must be securely located and physical access restricted.
- there are rigorous and verified back-up routines by our IT Provider Harrap IT.
- appropriate security measures (including updates) are in place to protect the servers, firewalls, switches, routers, wireless systems, workstations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data, including operating systems.
- the school's infrastructure and individual workstations are protected by up-to-date software to protect against malicious threats from viruses, worms, trojans etc.
- responsibilities for the management of technical security are clearly assigned to appropriate and well-trained staff.
- all users will have clearly defined access rights to school technical systems and accounts are deleted when the user leaves.
- users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- The IT Service Provider, in partnership with Governors/SLT/DSL, regularly monitors and records the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement

- mobile device security and management procedures are in place.
- an appropriate system is in place for users to report any actual/potential technical incident to the SLT/DSL/Online Safety Lead (OSL)/ (or other relevant person, as agreed)
- guest users are provided with appropriate access to school systems based on an identified risk profile.
- by default, users do not have administrator access to any school-owned device.
- an agreed policy is in place regarding the extent of personal use that users (staff/learners/community users) and their family members are allowed on school devices that may be used out of school.
- personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Password Security

A safe and secure username/password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices, email and learning platform).

Policy Statements:

- The password policy and procedures reflect NCSC and DfE advice/guidance.
- The use of passwords is reduced wherever possible, for example, using Multi-Factor Authentication (MFA) or (Single Sign On) SSO.
- Security measures are in place to reduce brute-force attacks and common passwords are blocked.
- School networks and system will be protected by secure passwords.
- Passwords are encrypted by the system to prevent theft.
- Passwords do not expire, and the use of password managers is encouraged.
- Complexity requirements (e.g., capital letter, lower case, number, special character) are not used.
- Users can reset their password themselves.
- Passwords are immediately changed in the event of a suspected or confirmed compromise.
- A copy of administrator passwords is kept in a secure location.

- All users (adults and learners) have responsibility for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Passwords must not be shared with anyone.

Learner passwords:

- For younger children and those with special educational needs, learner usernames and passwords can be kept in an electronic or paper-based form, but they must be securely kept when not required by the user.
- Learners are encouraged to set passwords with an increasing level of complexity. Passwords using 3 three random words and with a length of over 12 characters are considered good practice.
- Users will be required to change their password if it is compromised.
- Learners will be taught the importance of password security, this should include how passwords are compromised, and why these password rules are important Filtering and Monitoring

Introduction to Filtering

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, as online content changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is only one element in a larger strategy for online safety and acceptable use. It is important that the school has a filtering policy to manage the associated risks and to provide preventative measures which are relevant to the situation in this school.

Our filtering system should be operational, up to date and applied to all:

- users, including guest accounts.
- school owned devices
- devices using the school broadband connection.

Our filtering system should:

- filter all internet feeds, including any backup connections.
- be age and ability appropriate for the users and be suitable for educational settings.
- handle multilingual web content, images, common misspellings and abbreviations.
- identify technologies and techniques that allow users to get around the filtering such as VPNs and proxy services and block them.
- provide alerts when any web content has been blocked.

Introduction to Monitoring

Monitoring user activity on school devices is an important part of providing a safe environment for children and staff. Unlike filtering, it does not stop users from accessing material through internet searches or software. Monitoring allows you to review user activity on school and college devices. For monitoring to be effective it must pick up incidents urgently, usually through alerts or observations, allowing you to take prompt action and record the outcome.

Our monitoring strategy should be informed by the filtering and monitoring review. A variety of monitoring strategies may be required to minimise safeguarding risks on internet connected devices and may include:

- physically monitoring by staff watching screens of users
- live supervision by staff on a console with device management software
- network monitoring using log files of internet traffic and web access
- individual device monitoring through software or third-party services

Filtering and Monitoring Responsibilities

DfE Filtering Standards require that schools identify and assign roles and responsibilities to manage your filtering and monitoring systems, and include

Role	Responsibility	Name / Position
Responsible Governor	Strategic responsibility for filtering and monitoring and need assurance that the standards are being met.	Katie Shimman
Senior Leadership	<p>Team Member Responsible for ensuring these standards are met and:</p> <ul style="list-style-type: none"> • procuring filtering and monitoring systems • documenting decisions on what is blocked or allowed and why • reviewing the effectiveness of your provision • overseeing reports <p>Ensure that all staff:</p> <ul style="list-style-type: none"> • understand their role • are appropriately trained • follow policies, processes and procedures • act on reports and concerns 	<p>Kerrie Reeves</p> <p>Kira Jacobs/Karen Ancill/Emma Moakes</p> <p>Emma Moakes</p>
Designated Safeguarding Lead	<p>Lead responsibility for safeguarding and online safety, which could include overseeing and acting on:</p> <ul style="list-style-type: none"> • filtering and monitoring reports • safeguarding concerns • checks to filtering and monitoring systems 	Emma Moakes

IT Service Provider	Technical responsibility for: <ul style="list-style-type: none"> maintaining filtering and monitoring systems providing filtering and monitoring reports completing actions following concerns or checks to systems 	Harrap IT
All staff need to be aware of reporting mechanisms for safeguarding and technical concerns. They should report if:	<ul style="list-style-type: none"> they witness or suspect unsuitable material has been accessed. they can access unsuitable material. they are teaching topics which could create unusual activity on the filtering logs. there is failure in the software or abuse of the system. there are perceived unreasonable restrictions that affect teaching and learning or administrative tasks. they notice abbreviations or misspellings that allow access to restricted material. 	

Policy Statements

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation URL list and other illegal content lists. Filter content lists are regularly updated, and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed

internet access through the school network, filtering will be applied that is consistent with school practice.

- There is a filtering and monitoring system in place that safeguards staff and learners by blocking harmful, illegal and inappropriate content.
- There is a monitoring system that enables the prompt investigation of a potential safeguarding incident and outcomes are logged.
- Roles and responsibilities for the management of filtering and monitoring systems have been defined and allocated.
- The filtering and monitoring provision is reviewed at least annually and checked regularly.
- There is a defined and agreed process for making changes to the filtering or monitoring system that involves a senior leader in the agreement of the change.
- Mobile devices that access the school's internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems.

Changes to Filtering and Monitoring Systems

There should be a clear process for requests to change the filtering and monitoring systems and who makes the decision to alter the filtering system.

In this section the school should provide a detailed explanation of:

- how, and to whom, users may request changes to the filtering and monitoring systems. **Changes requested through IT Lead and DSL.**
- the grounds on which changes may be permitted or denied, **for educational purposes.**

Filtering and Monitoring Review and Checks

To understand and evaluate the changing needs and potential risks of the school, the filtering and monitoring provision will be reviewed at least annually. The review will be conducted by members of the senior leadership team, the designated safeguarding lead (DSL), and the IT service provider. Additional checks to filtering and monitoring will be informed by the review process so that governors have assurance that systems are working effectively and meeting safeguarding obligations.

Reviewing the filtering and monitoring provision

A review of filtering and monitoring will be carried out to identify the current provision, any gaps, and the specific needs of learners and staff.

The review will take account of:

- the risk profile of learners, including their age range, pupils with special educational needs and disability (SEND), pupils with English as an additional language (EAL)
- what the filtering system currently blocks or allows and why
- any outside safeguarding influences, such as county lines
- any relevant safeguarding reports
- the digital resilience of learners
- teaching requirements, for example, the RHSE and PSHE curriculum
- the specific use of chosen technologies
- what related safeguarding or technology policies are in place.
- what checks are currently taking place and how resulting actions are handled?

To make the filtering and monitoring provision effective, the review will inform:

- related safeguarding or technology policies and procedures
- roles and responsibilities
- training of staff
- curriculum and learning opportunities.

- procurement decisions
- how often and what is checked.
- monitoring strategies

The review will be carried out as a minimum annually, or when:

- a safeguarding risk is identified.
- there is a change in working practice, e.g., remote access or BYOD
- new technology is introduced.

Checking the filtering and monitoring systems

Checks to filtering and monitoring systems are completed and recorded as part of the filtering and monitoring review process. How often the checks take place will be based on the context, the risks highlighted in the filtering and monitoring review, and any other risk assessments. Checks will be undertaken from both a safeguarding and IT perspective.

When filtering and monitoring systems are checked this should include further checks to verify that the system setup has not changed or been deactivated. Checks are performed on a range of:

- school owned devices and services, including those used off site.
- geographical areas across the site
- user groups, for example, teachers, pupils, and guests

Logs of checks are kept so they can be reviewed. This record:

- when the checks took place
- who did the check
- what was tested or checked
- resulting actions

Training/Awareness:

It is a statutory requirement in England that staff receive training, at least annually, about safeguarding, child protection, online safety and filtering and monitoring. Furthermore, in order to protect personal and sensitive data, governors, senior leaders, staff and learners should receive training about information security and data protection, at least annually.

Governors, Senior Leaders and staff are made aware of the expectations of them:

- at induction
- at whole-staff/governor training
- through the awareness of policy requirements
- through the acceptable use agreements
- in regular updates throughout the year

Those with specific responsibilities for filtering and monitoring (Responsible Governor, DSL, OSL or other relevant persons) will receive enhanced training to help them understand filtering and monitoring systems and their implementation and review.

Learners are made aware of the expectations of them:

- in lessons
- through the acceptable use agreements

Parents will be informed of the school's filtering policy through the acceptable use agreement and through online safety awareness sessions/newsletter etc. (amend as relevant)

Audit/Monitoring/Reporting/Review:

Governors/SLT/DSL/OSL will ensure that full records are kept of:

- Training provided
- Security incidents related to this policy
- Annual online safety reviews including filtering and monitoring
- Changes to the filtering system
- Checks on the filtering and monitoring systems

Waterside Primary School Mobile Technologies Policy

Mobile technology devices may be a school owned/provided or privately owned smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud-based services such as email and data storage.

The absolute key to considering the use of mobile technologies is that the learners, staff and wider school community understand that the primary purpose of having their personal device at school is educational and that this is irrespective of whether the device is school owned/provided or personally owned. The mobile technologies policy should sit alongside a range of policies including but not limited to the safeguarding policy, anti-bullying policy, acceptable use policy, policies around theft or malicious damage and the behaviour policy. Teaching about the safe and appropriate use of mobile technologies should be included in the online safety education programme.

Potential Benefits of Mobile Technologies

Research has highlighted the widespread uptake of mobile technologies amongst adults and children of all ages. Web-based tools and resources have changed the landscape of learning. Learners now have at their fingertips unlimited access to digital content, resources, experts, databases, and communities of interest. By effectively maximizing the use of such resources, schools not only can deepen learning, but they can also develop digital literacy, fluency and citizenship in learners that will prepare them for the high-tech world in which they will live, learn and work.

Considerations

There are a number of issues and risks to consider when implementing mobile technologies, these include security risks in allowing connections to your school network, filtering of personal devices, breakages and insurance, access to devices for all learners, avoiding

potential classroom distraction, network connection speeds, types of devices, charging facilities, total cost of ownership.

Schools may consider implementing the use of mobile technologies as a means of reducing expenditure on school provided devices. However, it is important to remember that the increased network management costs and overheads involved in implementing this properly are likely to counterbalance or outweigh any savings.

The use of mobile technologies brings both real benefits and challenges for the whole school community – including teachers - and the only effective way for a school to implement these successfully is to involve the whole school community from the outset. Before the school embarks on this path, the risks and benefits must be clearly identified and shared with all stakeholders.

- The school acceptable use agreements for staff, learners and parents/carers will consider the use of mobile technologies.
- The school allows:

	School/devices			Personal devices		
	School owned and allocated to a single user	School owned for use by multiple users	Authorised device ⁴	Learner owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	Yes/No ⁵	Yes/No ⁵	Yes/No ⁵

⁴ Authorised device – purchased by the learner/family through a school-organised scheme. This device may be given full access to the network as if it were owned by the school

⁵ The school should add below any specific requirements about the use of personal devices in the school e.g. storing in a secure location, use during the day, liability, taking images etc

Full network access	Yes	Yes	Yes	No	YES - specified	No
Internet only				Yes	Yes	Yes
No network access				Yes		

The school has provided technical solutions for the safe use of mobile technologies in school (delete/amend as appropriate):

- o All school devices are managed through the use of Mobile Device Management software.
- o Appropriate access control is applied to all mobile devices according to the requirements of the user (e.g., Internet only access, network access allowed, shared folder network access)
- o The school has addressed broadband performance and capacity to ensure that core educational and administrative activities are not negatively affected by the increase in the number of connected devices.
- o For all mobile technologies on the school network, filtering will be applied to the internet connection and attempts to bypass this are not permitted.
- o Appropriate exit processes are implemented for devices no longer used at a school location or by an authorised user.
- o All mobile devices on the school network are monitored.
- o The software/apps originally installed by the school must remain on the school owned device in usable condition and be always easily accessible. From time to time the school may add software applications for use in a particular lesson. Periodic checks of devices will be made to ensure that users have not removed required apps.
- o The school will ensure that devices contain the necessary apps for schoolwork. Apps added by the school will remain the property of the school and will not be accessible to learners on authorised devices once they leave the school roll. Any apps bought by the user on their own account will remain theirs.
- o Where a school device has been provided to support learning. It is expected that learners will bring devices to the school as required.

- The changing of settings that would stop the device working as it was originally set up and intended to work is not permitted.

When personal devices are permitted:

- Personal devices commissioned onto the school network are segregated effectively from school-owned systems. Personal devices are brought into the school entirely at the risk of the owner and the decision to bring the device in to the school lies with the user (and their parents/carers) as does the liability for any loss or damage resulting from the use of the device in school.
- The school accepts no responsibility or liability in respect of lost, stolen or damaged devices while at school or on activities organised or undertaken by the school (the school recommends insurance is purchased to cover that device whilst out of the home)
- The school accepts no responsibility for any malfunction of a device due to changes made to the device while on the school network or whilst resolving any connectivity issues.
- The school recommends that the devices are made easily identifiable and have a protective case to help secure them as the devices are moved around the school. Passcodes or PINs should be set on personal devices to aid security.
- The school is not responsible for the day-to-day maintenance or upkeep of the user's personal device such as the charging of any device, the installation of software updates or the resolution of hardware issues.

Users are expected to act responsibly, safely and respectfully in line with current acceptable use agreements, in addition:

- Devices are not permitted in tests or exams.
- there is clear advice and guidance at the point of entry for visitors to acknowledge school requirements.
- Users are responsible for keeping their device up to date through software, security and app updates.
- Users are responsible for charging their own devices and for protecting and looking after their devices while in the school.
- Confiscation and searching (England) - the school has the right to take, examine and search any device that is suspected of unauthorised use, either technical or inappropriate.

- Users should be mindful of the age limits for app purchases and use and should ensure they read the terms and conditions before use.
- The expectations for taking/storing/using images/video aligns with the school's acceptable use policy and use of images/video policy. The non-consensual taking/using of images of others is not permitted.
- Devices may be used in lessons in accordance with teacher direction.
- Staff owned devices should not be used for personal purposes during teaching sessions, unless in exceptional circumstances
- Printing from personal devices will not be possible, except for the Head Teacher.

Social Media Policy – Waterside Primary School

Social media (e.g., Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However, some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

Waterside Primary School recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and learners are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by the school, its staff, parents, carers and children.

Scope

This policy is subject to the school's codes of conduct and acceptable use agreements.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education.

The school respects privacy and understands that staff and learners may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media account. In all cases, where a personal account is used which associates itself with, or impacts on, the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with learners are also considered. Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.

Organisational control

Roles & Responsibilities

- **SLT**
 - Facilitating training and guidance on Social Media use.
 - Developing and implementing the Social Media policy
 - Taking a lead role in investigating any reported incidents.
 - Making an initial assessment when an incident is reported and involving appropriate staff and external agencies as required.
 - Receive completed applications for social media accounts.
 - Approve account creation.
- **Administrator/Moderator**
 - Create the account following SLT approval.
 - Store account details, including passwords securely.
 - Be involved in monitoring and contributing to the account.

- Control the process for managing an account after the lead staff member has left the organisation (closing or transferring)
- **Staff**
 - Know the contents of and ensure that any use of social media is carried out in line with this and other relevant policies.
 - Attending appropriate training
 - Regularly monitoring, updating and managing content he/she has posted via school accounts.
 - Adding an appropriate disclaimer to personal accounts when naming the school

Process for creating new accounts.

The school community is encouraged to consider if a social media account will help them in their work, e.g., a history department Twitter account, or a “Friends of the school” Facebook page. Anyone wishing to create such an account must present a business case to the Leadership Team which covers the following points: -

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently. Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be always professional and respectful and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- If a journalist makes, contact about posts made using social media staff must follow the school media policy before responding.
- Unacceptable conduct, (e.g., defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the

matter to the police and other relevant external agencies and may take action according to the disciplinary policy.

Legal considerations

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse

- When acting on behalf of the school, respond to harmful and / or offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken.
- If you feel that you or someone else is subject to abuse by colleagues through use of online communications, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing online content are:

- Engaging
- Conversational
- Informative
- Professional

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload learner pictures online other than via official school channels.
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Learners should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use

- **Staff**
 - Personal communications are those made via a personal online account. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
 - Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
 - Where excessive or inappropriate personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.
 - The school permits reasonable and appropriate access to private social media sites.
- **Learners**
 - **Staff are not permitted to follow or engage with current or prior learners of the school on any personal social media account**
 - The school's education programme should enable the learners to be safe and responsible users of social media.

- Learners are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy.
- **Parents/Carers**
 - If parents/carers have access to a school learning platform where posting or commenting is enabled, parents/carers will be informed about acceptable use.
 - The school has an active parent/carer education programme which supports the safe and positive use of social media. This includes information on the website.
 - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

Appendix

Managing your personal use of Social Media:

- "Nothing" on social media is truly private
- Social media can blur the lines between your professional and private life. Don't use the school logo and/or branding on personal accounts
- Check your settings regularly and test your privacy
- Keep an eye on your digital footprint
- Keep your personal information private
- Regularly review your connections – keep them to those you want to be connected to
- When posting online consider; Scale, Audience and Permanency of what you post

- If you want to criticise, do it politely.
- Take control of your images – do you want to be tagged in an image? What would children or parents say about you if they could see your images?
- Know how to report a problem

Managing school social media accounts

The Do's

- Check with a senior leader before publishing content that may have controversial implications for the school.
- Use a disclaimer when expressing personal views.
- Make it clear who is posting content.
- Use an appropriate and professional tone.
- Be respectful to all parties.
- Ensure you have permission to 'share' other peoples' materials and acknowledge the author.
- Express opinions but do so in a balanced and measured manner
- Think before responding to comments and, when in doubt, get a second opinion.
- Seek advice and report any mistakes using the school's reporting process.
- Consider turning off tagging people in images where possible.
- Ensure the account is set up securely and the account can be transferred to another approved staff member in the event of the account holder leaving the school.

The Don'ts

- Don't make comments, post content or link to materials that will bring the school into disrepute.
- Don't publish confidential or commercially sensitive material.
- Don't breach copyright, data protection or other relevant legislation.
- Don't link to, embed, or add potentially inappropriate content. Consider the appropriateness of content for any audience of school accounts.
- Don't post derogatory, defamatory, offensive, harassing, or discriminatory content.
- Don't use social media to air internal grievances.

Legislation

Schools should be aware of the legislative framework under which this online safety policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an online safety issue or situation.

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- "Eavesdrop" on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.

- Secure.
- Not transferred to other countries without adequate protection.

The Data Protection Act 2018:

Updates the 1998 Act, incorporates the General Data Protection Regulations (GDPR) and aims to:

- Facilitate the secure transfer of information within the European Union.
- Prevent people or organisations from holding and using inaccurate information on individuals. This applies to information regarding both private lives or business.
- Give the public confidence about how businesses can use their personal information.
- Provide data subjects with the legal right to check the information businesses hold about them. They can also request for the data controller to destroy it.
- Give data subjects greater control over how data controllers handle their data.
- Place emphasis on accountability. This requires businesses to have processes in place that demonstrate how they're securely handling data.
- Require firms to keep people's personal data safe and secure. Data controllers must ensure that it is not misused.
- Require the data user or holder to register with the Information Commissioner.

All data subjects have the right to:

- Receive clear information about what you will use their data for.
- Access their own personal information.
- Request for their data to be revised if out of date or erased. These are known as the right to rectification and the right to erasure
- Request information about the reasoning behind any automated decisions, such as if computer software denies them access to a loan.
- Prevent or query about the automated processing of their personal data.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
 - Ascertain whether the communication is business or personal;
 - Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered

Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. YouTube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening.

Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of "higher law", affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of learners when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data.

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent/carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

<https://www.gov.uk/guidance/what-maintained-schools-must-publish-online>

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)

Criminal Justice and Courts Act 2015

Revenge porn – as it is now commonly known – involves the distribution of private and personal explicit images or video footage of an individual without their consent, with the intention of causing them embarrassment and distress. Often revenge porn is used maliciously to shame ex-partners. Revenge porn was made a specific offence in the Criminal Justice and Courts Act 2015. The Act specifies that if you are accused of revenge porn and found guilty of the criminal offence, you could be prosecuted and face a sentence of up to two years in prison.

For further guidance or support please contact the [Revenge Porn Helpline](#)
